April Quarterly Disclosure Report (1/01 - 3/31/2012)

#### BEST EFFORTS

Given that a number of the contributions received are as a result of solicitations for our "small donor programs" and despite the fact that each appeal includes a clear and conspicuous request for the contributor information as well as occupation and employer; some of the donors do not provide that information on the initial request. The committee has established procedures whereby the following steps are taken to satisfy the "best efforts" requirements: (i) within thirty (30) days of the receipt of the contribution, a letter is sent, clearly asking for the missing information, without soliciting a contribution; (ii) we inform the contributor of the requirements of federal law for the reporting of such information; and (iii) we provide a pre-addressed return envelope, a fax number and an email address. Upon receipt of the information the committee will amend its reports to provide the new information.

The Commission may find that certain individuals will provide occupational descriptions that are considered unacceptable. The Committee's data entry specialists key the information provided by the donor and they make no distinction as to its acceptability. Through our "best efforts" mailings, the Committee will attempt to obtain more acceptable descriptions.

#### OCCUPATION & EMPLOYER INFORMATION
